LATEST BY TELEGRAPH. Two Pays Later from Europe. ARRIVAL OF THE AMERICA. The Secession Folly! Details of the Firing into the Star of the West.

Halifax, January 11.—The Royal mail steamship America, from Liverpool on Saturday, the 29th ult., via Queenstown on the 30th, has arrived at this port. She has £162,000 in specie for New York.

The iron-plated ship-of-war Warrior was successfully launched on the 29th.

The journals generally condemn rather than praise the circular of the Austrian Minister. The Vessel Struck by Four Balls-She is to Return to Charleston Accompanied by Two War Steamers-Disunion Feeling in Bultimore-Singular Transfer of Government Specie from New York to Washington-General Dix to be Secretary of the In-

The posts of Minister of Commerce and Minister of Public Instruction in the Cabinet of Vienna remain vacant. Dispassionate politicians see that Count Richbert and M. Vonschellerf can not possibly pull together. The Paris correspondent of the London Herald says that the warlike preparations of France are on a far larger scale than at the same period of 1858.

Wassmoron, January 10.—A dispatch from Keitt to the Secessionists gives the details of the firing, and says that four balls struck the steamer's hull. A portion of the dispatch was confidential to Southern Senators, but it is understood that it urges them to remain in their seats to defeat objectionable legislation, and the confirmation of McIntyre as Collector of the port of Charleston. In Eastern Prussia for the French and Piedmontese Governments.

The sales of cotton at Liverpool on Saturday were 15,000 bales, including 5,000 to exporters and speculators; market closing firm.

The advices 'r a Manchester are favorable. The market was firm, and goods suitable for the China market ware slightly higher, though business was restricted, in consequence of the bolidays.

Liverpool, Frislay.—Richardson, Spence & Co. quote the market quiet—giving is to the holidays. Flour firm and savancing; quoted at 29s. 6d @32s. 6d. Senator Wigfall publicly declares that the Palmotic flag will be able to enter Charles-ton until every gun of Fort Moultrie is dis-

mentled.

[The above paragraph, even after supplying the term gun, means nothing; but perhaps it would be absurd to expect Wigfall to say any thing sensible. Perhaps he was talking his usual style of cocktail patriotism. Ep. Passa.]

Sonator Pearce has yielded to outside pressure, and united in a request for convening the Legislature of Maryland. Governor Hicks still resists. The disunion movement in Baltimore is headed by Custom house officers, who are the special friends of Mr. Thomas, Secretary of the

Much remark is excited by the transfer of \$800,000 in specie, from the Sub-treasury in New York to this city, without any suffi-

The seige of Gacta continues day and night. The garrison replied. It was reported that the young Queen had left. A decree constitutes the provinces of Naples, Sicily, the Marches and Umbria as integral parts of the States of Sicily.

Turkey.—The Jeddo claims have been definitely settled. Thay are to be paid in full in Turkish Consols at 53.

China.—The text of the Chinese treaty is published. It contains a reference to Mr. Ward's agreement to pay sovereign homage to the Emperor, but the tolographic summary at Liverpool makes the sense obscure. The English indemnity is nominally £3;000,000, which is considered too small.

The United States steamer Hartford, and sloop-of-war John Adams, were at Hong-Kong, and the gun-boat Saginase at Shanghal.

most comprehensive; and Shakespeare, in virtue of his comprehensiveness, would doubt in many instances where Macaulay is most certain. The most perfect exhibition of Macaulay's talent is most certain. The most perfect exhibition of Macaulay's talent is his analysis and representation of the character of James II., from a hostile point of view. He catches his victim in a series of cuaningly contrived naps, and the poor creature, in Macaulay's narrative, can not move a step without falling into the trap marked folly on the trap wickedness. Shakespeare's method of deeling with character was entirely different."

method of deeling with character was entirely different."

Of the Essays, Whipple adds:

"As an artist Mecaulay is greater in his Essays than in his History of England. Each of his Essays is an unit. " " The amount of knowledge each of them includes can only be estimated by those who have patiently read the many volumes they so brilliantly condense. In style they show a mastery of English which has been attained by no other English author who did not possess a creative imagination. The art of the writer is shown as much in his deliberate choice of common and collequial phrases as in those splendid passages in which he almost seems to exhaust the resources of the English tongue. As a narrator in his own province, it would be difficult to name his equal among English writers; to his narrative all his English writers; to his narrative all his talents and accomplishments combined to lend faccination; and in it he exhibited the undersanding of Hallam and the knowledge of Mackintosh joined to the picturesqueness of Southey and the wit of Pope."

FRMALE ENERGY REWARDED .- Ten young women bought a barrel of flour, drew it on a hand-sled, and rolled it into the house, joining a donation party, which presented Rev. Mr. Fay, Baptist minister, of Belchertown, Mass., with \$40 in money and goods. After the presentation, the pastor married two couples of the party. What a base return was that of the clergyman for the kindness shown him by the women.

A MUCH-NEEDED CADINANCE TO BE ENPORCED,—Marshal Bennett informed us yesterday, that after Tuesday next, all hogafound wandering around in the city would
be levied upon. The owners of swine will
therefore find it advantageous to themselves
to pen up their hogs, and free the city from
a nuisance long endured. We are pleased
to see that our new Marshal is working to
the interest of the public.

SUTH.—Five thousand slaves were sent South from Richmond, Va., over the Petersburg road; 5,000 over the Tennesses road, and 2,000 by other channels, during the year 1860. Valued at \$1,000 each, \$12,000,000 have been received in cash by the State.
